Karim Mohamed Saad

Phone: 01145222298 Mail: karimsaad1552003@gmail.com address: Alexandria, Egypt

SUMMARY

Hardworking and enthusiastic 3rd-year Computer Science student specializing in Data Analysis and AI. Equipped with a diverse and promising skill-set. Able to effectively self-manage during independent projects, as well as collaborate in a team setting

EDUCATION

Bachelor of computer science | 2022-2026

Arab Academy For Science and Technology and Transport Maritime

- GPA: 2.9
- College Saint-Marc

INTERNSHIPS

- Machine and Deep Learning Developer, Telecom Egypt
- Requirements Analyst, AppSoft

PROJECTS

Power BI Dashboard – Video Game Sales Analysis

- Improved understanding of global video game market trends, which could be used for sales forecasting, market targeting, and genre-based game development strategy.
- Developed an interactive Power BI dashboard to analyze a dataset of over 16,000 video game sales records across multiple regions .The project aimed to identify trends, top-performing platforms, and genre-specific insights.

Machine and Deep Learning Development

- Worked on end-to-end machine learning workflows, including data collection, cleaning, transformation, and model development.
- Built and evaluated ML/DI models using Python, Pandas, Scikit-lear, and TensorFlow/PyTorch to extract valuable insights and support data-driven decisions.

Software Analyst – Ticketing Management System Design

- Designed a comprehensive Entity-Relationship Diagram (ERD) representing entities such as Tickets, Users, Departments, Priorities, and Status Logs.
- Created a data dictionary detailing each attribute, datatype, and purpose to support future database implementation.

Scanned with CamScanner

- Produced a technical specification document outlining the system's data structure and workflow logic.

Project Management For Pharmacy Management System using MS Project

Developed a detailed project plan for a Pharmacy Management System using Microsoft Project. Defined project scope, tasks, timelines, and resource allocations. Created Gantt charts and set project milestones to ensure effective time management and delivery. Applied project management principles to simulate real-world planning and improve coordination between development phases.

SKILLS AND LANGUAGES

- **Programming languages**: Python, Java, C, SQL
- **Tools**: PowerBI, Excel, Tableau, Microsoft Project
- **Librarie**s: numpy, pandas, matplotlib, seaborn, scikit-learn, tensorflow
- Cisco CyberOps Associate CBROPS, NTI (Excellent)
- CCNA
- Arabic- native English-Fluent French- (DELF B1) fluent
