Full Stack Developer

Data Analyst

PROFESSIONAL SUMMARY

Information Systems graduate seeking full-stack developer and data analyst roles. Full-stack work includes co-founding Ascendra, where we build school systems and gate systems, and Vertex Reviews, where I delivered 20+ websites plus logos, flyers, and printable menus for business identity. Data analysis work includes Power BI dashboards, machine learning workflows, and a machine learning internship at Telecom Egypt. A year and a half in real estate sales at ElitePlus strengthened client communication and negotiation.
