WORK EXPERIENCE

Co-founder - Ascendra *Alexandria, Egypt | Present*
- Co-founded a technology studio building custom software, conversion-focused websites, and offline-first IoT systems for clients in Egypt and the United States.
- Contribute to full-stack product delivery and support Ascendra as authorized Egypt operations partner of Vertex Reviews (New Jersey, USA).

Full Stack Developer - Vertex Reviews *New Jersey, USA (remote) | Present*
- Build and maintain production web experiences for Vertex Reviews, a Google Business Profile and reputation management company serving US businesses.
- Support service storytelling, package presentation, and client conversion flows across the Ascendra x Vertex partnership.

Real Estate Agent (Sales) - ElitePlus *Egypt | 2025 - 2026*
- Spent one year in client-facing real estate sales, building strong communication, negotiation, and relationship-management skills.

Machine and Deep Learning Developer (Intern) - Telecom Egypt *Egypt | Internship*
- Worked on machine and deep learning development tasks, including data preparation and model-oriented problem solving in an enterprise environment.

Requirements Analyst (Intern) - AppSoft *Egypt | Internship*
- Analyzed software requirements, clarified system expectations, and supported structured documentation for implementation-ready specifications.

CERTIFICATIONS

- Cisco CyberOps Associate (CBROPS) - NTI (Excellent)
- CCNA - Cisco
- Odoo Technical Bootcamp - Feb 2026 (8-hour technical completion)

PROJECTS

Vertex Reviews *-> Here*
- Built 20+ websites and delivered business rebranding by designing logos, flyers, and printable menus to strengthen business identity.

Ascendra *-> Here*
- Built the school system and control platform, offline-first gate systems, and business websites for clients in the US and Egypt.

Video Game Sales Analysis | Power BI
- Interactive Power BI dashboard analyzing 16,000+ video game sales records across regions to identify platform, genre, and market trends for forecasting and targeting.

Machine & Deep Learning Workflows | Python, Pandas, Scikit-learn, TensorFlow, PyTorch
- End-to-end ML workflows covering data collection, cleaning, transformation, model development, and evaluation to support data-driven decisions.

Ticketing Management System Design | ERD, Data modeling

• Designed ERD, data dictionary, and technical specification covering tickets, users, departments, priorities, and status logs.

Pharmacy Management System Planning | Microsoft Project

• Defined project scope, tasks, timelines, resources, Gantt charts, and milestones for a Pharmacy Management System using Microsoft Project.
