Full Stack Developer

Data Analyst

PROFESSIONAL SUMMARY

Information Systems graduate seeking full-stack developer and data analyst roles. Full-stack work includes Ascendra, where we build school systems and gate systems, and Vertex Reviews, where I delivered 20+ websites plus logos, flyers, and printable menus for business identity. Data analysis work includes Power BI dashboards, machine learning workflows, and a machine learning internship at Telecom Egypt. Real estate sales at ElitePlus strengthened client communication and negotiation.

EXPERIENCE

Full Stack Developer - Ascendra *Egypt | Apr 2026 - Present*

- We build school systems and gate systems.
- Live product: https://ascendrasol.com/

Full Stack Developer - Vertex Reviews *New Jersey, USA (remote) | Apr 2026 - Present*

- Work with Vertex through its collaboration with Ascendra, which runs Vertex's back-end services.
- Delivered 20+ websites and business rebranding through logos, flyers, and printable menus.
- Live product: https://www.vertexreviews.com

Real Estate Agent (Sales) - ElitePlus *Egypt | Aug 2025 - Oct 2026*

- Worked in client-facing sales, building communication, negotiation, and relationship management.

Machine and Deep Learning Developer (Intern) - Telecom Egypt *Egypt | Jan 2025 - Feb 2025*

- Worked on machine and deep learning tasks, including data preparation and model development.

Requirements Analyst (Intern) - AppSoft *Egypt | Jul 2024 - Aug 2024*

- Analyzed software requirements and wrote specifications for implementation.

EDUCATION

Bachelor of Information Systems

College of Computing and Information Technology

Arab Academy for Science, Technology & Maritime Transport *Egypt | 2022 - 2026*

ACADEMIC PROJECTS

VulnGPT - AI-Assisted Web Vulnerability Analysis Engine

- AI-powered web security testing platform using HTTP/HTTPS traffic analysis, controlled security testing, and evidence-based reporting, with AI-assisted vulnerability analysis, risk prioritization, false-positive verification, and remediation recommendations.
- Nominated for discussion before the College Council for its technical value and potential impact.

Video Game Sales Analysis | Power BI

- Interactive dashboard on 16,000+ sales records across regions, platforms, and genres.

Machine and Deep Learning Workflows | Python, Pandas, Scikit-learn, TensorFlow, PyTorch

- End-to-end workflows: collection, cleaning, transformation, model development, and evaluation.

Ticketing Management System | ERD, data modeling

- ERD, data dictionary, and technical specification for tickets, users, departments, priorities, and status logs.

Pharmacy Management System | Microsoft Project

- Scope, tasks, timelines, resources, Gantt chart, and milestones.

SKILLS

Programming languages: Python, Java, C, SQL

Data and AI: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, PyTorch, Power BI, Tableau, Excel

Analysis: Requirements analysis, ERD, technical specifications, Microsoft Project, Git

Professional: Client communication, sales and negotiation, relationship building

Spoken languages: Arabic (Native), English (Fluent), French (DELF B1, Fluent)

CERTIFICATIONS

- Cisco CyberOps Associate (CBROPS), NTI - Excellent
- Odoo Technical Bootcamp - February 2026, 8-hour course
